

1. User

Field Name	Data Type	Description	Key
User_ID	INT	Unique identifier of the user	PK
Full_Name	VARCHAR	Complete name of the user	—
Email	VARCHAR	User's registered email address	—
Password	VARCHAR	Encrypted user password	—
Role	VARCHAR	Identifies whether the user is a client or administrator	—

2. Announcement

Field Name	Data Type	Description	Key
Announcement_ID	INT	Unique identifier of the announcement	PK
Title	VARCHAR	Title of the announcement	—
Content	TEXT	Full details of the announcement	—
Date_Posted	DATE	Date when the announcement was published	—
Status	VARCHAR	Indicates whether the announcement is published or unpublished	—
Admin_ID	INT	Identifies the administrator who created the announcement	FK

3. Service

Field Name	Data Type	Description	Key
Service_ID	INT	Unique identifier of the bank service	PK
Service_Name	VARCHAR	Name of the bank service	—
Description	TEXT	Description of the service	—
Requirements	TEXT	Requirements needed to avail the service	—

Admin_ID	INT	Identifies the administrator who manages the service	FK
----------	-----	--	----

4. Event

Field Name	Data Type	Description	Key
Event_ID	INT	Unique identifier of the event	PK
Event_Name	VARCHAR	Name of the event or activity	—
Description	TEXT	Details of the event	—
Event_Date	DATE	Scheduled date of the event	—
Location	VARCHAR	Location where the event will take place	—
Admin_ID	INT	Identifies the administrator who created the event	FK

5. Inquiry

Field Name	Data Type	Description	Key
Inquiry_ID	INT	Unique identifier of the inquiry	PK
User_ID	INT	Identifies the client who submitted the inquiry	FK
Subject	VARCHAR	Subject of the inquiry	—
Message	TEXT	Content of the client's inquiry	—
Date_Submitted	DATE	Date when the inquiry was submitted	—
Status	VARCHAR	Indicates the current status of the inquiry	—

6. Feedback

Field Name	Data Type	Description	Key
Feedback_ID	INT	Unique identifier of the feedback	PK
User_ID	INT	Identifies the client who submitted the feedback	FK
Message	TEXT	Content of the feedback	—

Rating	INT	Numerical rating provided by the client	—
Date_Submitted	DATE	Date when the feedback was submitted	—

7. FAQ

Field Name	Data Type	Description	Key
FAQ_ID	INT	Unique identifier of the FAQ	PK
Question	VARCHAR	Frequently asked question	—
Answer	TEXT	Answer corresponding to the question	—
Admin_ID	INT	Identifies the administrator who manages the FAQ	FK

8. Checklist

Field Name	Data Type	Description	Key
Checklist_ID	INT	Unique identifier of the checklist	PK
Service_ID	INT	Identifies the service associated with the checklist	FK
Requirement_Name	VARCHAR	Name of the required document or requirement	—
Description	TEXT	Details about the requirement	—
Status	VARCHAR	Indicates the current status of the requirement	—

9. Uploaded Document

Field Name	Data Type	Description	Key
Document_ID	INT	Unique identifier of the uploaded document	PK
User_ID	INT	Identifies the client who uploaded the document	FK
Checklist_ID	INT	Identifies the checklist requirement associated with the document	FK
File_Name	VARCHAR	Name of the uploaded document	—

File_Path	VARCHAR	Location of the stored document	—
Upload_Date	DATE	Date when the document was uploaded	—

10. OCR Result

Field Name	Data Type	Description	Key
OCR_ID	INT	Unique identifier of the OCR result	PK
Document_ID	INT	Identifies the document processed by OCR	FK
Extracted_Text	TEXT	Text extracted from the uploaded document	—
OCR_Status	VARCHAR	Indicates whether the OCR process was successful	—
Processed_Date	DATE	Date when the document was processed	—

11. Validation Result

Field Name	Data Type	Description	Key
Validation_ID	INT	Unique identifier of the validation result	PK
Document_ID	INT	Identifies the document being validated	FK
Checklist_ID	INT	Identifies the requirement used for validation	FK
Validation_Status	VARCHAR	Indicates whether the document meets the required criteria	—
Remarks	TEXT	Additional information about the validation result	—
Validation_Date	DATE	Date when the validation was performed	—
